M-717 MSC Cashew Kernel Peeling Machine without Compressor	1	495,600.00	495,600.00
M-240D Electric Dehydration unit(15Kg/Batch)	1	325,000.00	325,000.00
Total			1,173,125.00

1. Payment Terms:- Please draw your cheques in favour of "BUDDHI INTERNATIONAL ENGINEERING (PVT) LTD."

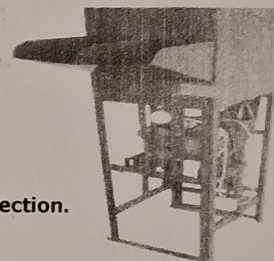

Bank Name: Bank of Ceylon, Minuwangoda Branch.
Bank Account-86668076

2. Technical Details of the M-171 Cashew shelling machine-

Capacity : - About 20Kg/Hour.
Operated by : - Electricity.

Motor

: - 0.5HP 230V or
:- 0.5HP 440V with overload protection.
Height : - 141cm.
Width : - 46cm.
Length : - 50cm.
Weight : - 110kg.

3. Shelling Ratio - 95% Full kernels /less than 2% broken depending on pretreatment process

4. Technical Details of the M-717MSC Cashew kernal Peeling Machine

Capacity : - About 15-20 kg/hour
Operated by : - Electricity
Power supply : - 230V

Origin :- Sri-Lanka

5. Required Compressor Technical details

:- 300l tank
4HP
8-12 Bar
CFM-17.6

Food contact surface stainless steel

6. M-240-D Electric Dehydration Unit Specification.

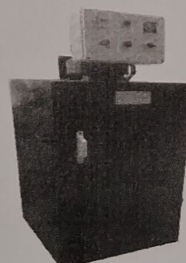

Power 1500 W (15Kg/batch)
Power Supply -220V,440V
Maximum Temp.-100°C

7. Origin :- Sri-Lanka

Patent No. :- 13156

Conditions

Within a month after received the purchase order & advance payment
of 50% for each item is required with order confirmation.

Delivery :- Arrangements has to be done by the customer.

Warranty Period :- 1 year on manufactural Defects

After Sale Service :-

1. warranty period

a) One Year on manufactural defects

b) To send a technician during the warranty period transport charges,
should be born by the customer. service free of charge.

2. After the warranty period

a) After the warranty period to send a technician during the warranty period
accommodation, transport charges and service charges should bear by the customer.

Above Price valid only for 10 days.
